The Biggest Thing Since the Light Bulb.™

The 100-watt Cree® LED Bulb delivers 1,600 lumens of soft, warm, 2700K light and vivid, cool daylight 5000K light, while using just 18 watts. The 100-watt Cree LED Bulb looks and lights like a traditional incandescent bulb, but uses 82% less energy and is designed to last 25 times longer.

With twice as many lumens as our 60-watt replacement, the 100-watt replacement Cree LED bulb is ideal for applications that require the most light, while still providing unmatched energy savings. Its common A21 traditional bulb shape and size make the 100-watt Cree LED Bulb perfect for nearly any open lighting fixture in the home including floor lamps, reading lights, high ceilings and dark hallways.
