Candelabra Light Bulbs

replaces 25w/40w

CREE

SHOWS COLORS TRUE AND NATURAL

Cree® TW Series™ LED Candelabra bulbs look and light just like traditional incandescent candelabras, emitting a warm, decorative sparkle. They light instantly, are dimmable and use 88% less energy than traditional incandescents while lasting over 25,000 hours.

Their decorative blunt tip, clear finish and UL damp rating make them ideal for use in exposed indoor candelabra fixtures, wall sconces, chandeliers and enclosed outdoor fixtures.

Cree B13 Candelabra bulbs 25-Watt & 40-Watt Replacement

	25	40		25w	40w

What makes them great?

- B13 bulb style (weighs 2 oz.) and uses a standard candelabra E12 screw-in base
- High CRI LED light quality to show colors true and natural
- Energy Star certified
- Save money now and save money later
Uses 88% less energy than an incandescent
- 25,000-hour lifetime compared to about 1,000 hours for typical incandescent
- Dimmable with most standard dimmers
- Instant-on light
- Mercury free
